

Ethyl Acetate

Product description

Product	Ethyl Acetate
Chemical formula	CH ₃ CHOHCH ₃

Physico-chemical properties

Quality performances	Value
Appearance	A colorless transparent liquid without mechanical impurities
Density at 20° C, (G/sm ³)	0.785 - 0786
Part by mass of isopropyl alcohol, %, max	99.7
Part by mass of the acid on conversion to the acetic acid, %, max	0.0007
Part by mass of sulfuric compounds on conversion to the sulfur, %, max	0.00005
The bromine number (1G bromine with 100 G of alcohol)	0.006
Part by mass of the carbon compounds on conversion CO, %, max	It is not determined
