

Hydrogen Peroxide 35%, 50%

Product description

Product	Hydrogen Peroxide 35%, 50%
Properties	Colorless transparent liquid
Chemical name:	Hydrogen peroxide aqueous solution 35%
Synonyms	Hydrogen peroxide, perhydrol
Empirical formula	H ₂ O ₂
Applications	Bleaching agent in pulp and paper industry, bleaching agent in textile industry (cotton, linen, wool etc.), metal surface cleaning agent (before electrolytic coating) in machinery, raw material for synthetic detergents production (sodium percarbonate and perborate), oxidizing, hydroxylating or epoxidizing agent in chemical industry.

Physico-chemical properties

Quality performances	Value
Assay, %	35 – 40
Non volatiles content, g/m ³ , max	0.7
Acetic acid content, g/dm ³ , max	6.0
